Introduction:

What is a Nursery?

A place where plants are grown commercially, either for sale direct to the public or to other retailers. OR; An area where we grow and nurse young progeny (an offspring of a person, animal, or plant) of plants is called Nursery.

A plant nursery is a place where plants are propagated, grown, and sold for gardening or landscaping purposes. Nurseries may specialize in a particular type of plant, such as annuals, perennials, herbs, vegetables, fruit trees, or shrubs, or they may offer a wide variety of plants for sale.

Purpose of Nursery: The primary purpose of a plant nursery is to propagate and grow plants for sale to the public. Nurseries may specialize in a particular type of plant, such as annuals, perennials, herbs, vegetables, fruit trees, or shrubs, or they may offer a wide variety of plants for sale. The plants grown in a nursery are often used for home gardens, public parks, and landscaping projects.

- Nurseries are raised to get plants of the right size at the right time.
- Nurseries are raised to get such plants which are good in health.
- Nurseries are raised to get plants of the desired spp.

Importance of Nursery:

Plant nurseries play an important role in the horticultural/forestry industry and in the development of gardens and landscapes. They provide a reliable source for a wide variety of plants, and many people rely on them for the plants they need to beautify their homes and gardens.

Nurseries also help to preserve and protect rare and endangered plant species by propagating and growing them in a controlled environment. In addition, they can help to educate the public about the importance of plants and the role they play in the environment. Finally, plant nurseries provide employment and contribute to the economy by selling plants and gardening supplies to the public.

Establishment of nurseries is important for the following reasons:

- Production of proposed size and age of seedlings.
- Production of the desired number of seedlings.
- Production of healthy plants of the desired spp.
- Production of plants of superior quality.
- asarak Sanstha Mano_{ra} Production of desired plants at the right time.
- Production of seedlings at a cheaper cost.

Objectives:

- 1. To get knowledge of plant Nursery production to the students.
- 2. To get new employment ideas to students from plant science.
- 3. To create awareness in students for creating plantlets at own home.
- **4.** To aware students for creating more greenery using nursery tools.
- 5. To get achieve a special skill in students.
